Bioceramic Composites

Message from the Guest Editors

Bioceramic composites were introduced into orthopaedic practice around 2002. Zirconia–alumina composites, in particular, have attracted a great deal of attention because of their superior mechanical behaviour in comparison with alumina ceramic, i.e., the former standard ceramic in joint replacements. Today, several manufacturers are proposing different zirconia–alumina composites for use in hip, knee, shoulder joint replacements, while several innovative devices are under study and new classes of materials are under development. In dentistry, bioceramic composites allow for the innovative design of dental implants as well as restorations.

Guest Editors

Mr. Corrado Piconi

National Research Council of Italy, Institute of Science and Technology for Ceramics (CNR-ISTEC), Faenza, Italy

Dr. Simone Sprio

National Research Council, 00185 Rome, Italy

Deadline for manuscript submissions

closed (31 July 2021)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Dr. Francesco Tornabene
Department of Innovation Engineering, University of Salento, 73100
Lecce, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Materials Science, Composites) / CiteScore - Q1 (Engineering (miscellaneous))
