Sustainable Biocomposites

Message from the Guest Editors

The global economy is shifting towards a bioeconomy, and there is continuous pressure to substitute petroleum-based materials with sustainable and renewable biomaterials, including biocomposites. Biocomposites are of increasing interest as a renewable, environmentally friendly alternative to non-renewable materials. They contribute to reaching environmental targets (reduction of greenhouse gas emissions (GHG) and the carbon footprint and attenuation of the impact of climate change). Thus, they contribute to building a foundation of sustainability and bioeconomy worldwide. The Euromag2020 conference entitled *"Sustainability and Biobased Materials on the Road of Bioeconomy"* addresses these issues. Manuscripts presented at this conference aim to address the challenges and opportunities of the valorization of biomass for the production of biomass for biocomposites from the extraction of natural polymers, biopolymers, and biocomposites from macro to nanoscales.

Guest Editors

Prof. Dr. Ahmed Koubaa

Dr. Mohamed Ragoubi

Dr. Frédéric Becquart

Deadline for manuscript submissions

closed (30 June 2022)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Dr. Francesco Tornabene
Department of Innovation Engineering, University of Salento, 73100
Lecce, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Materials Science, Composites) / CiteScore - Q1 (Engineering (miscellaneous))
