10th Anniversary of *JDB*— Recent Advances in Wnt Signaling in Development and Regeneration

Message from the Guest Editor

The year 2023 marks the 10th anniversary of the *Journal of Developmental Biology* (*JDB*) (ISSN 2221-3759). *JDB* has published over 299 papers by more than 935 authors, and nearly 515 reviewers have submitted at least one review report. We would like to express our sincerest thanks to our readers, innumerable authors, anonymous peer reviewers, editors, and all the people working in some way for the journal who have made substantial contributions over the years. To mark this important milestone, a Special Issue entitled “10th Anniversary of *JDB*—Recent Advances in Wnt Signaling in Development and Regeneration” is being launched. This Special Issue will highlight the new research that is expanding our understanding of this fundamental signaling pathway. We will collect research articles and high-quality review papers in the research fields. Topics of interest include, but are not limited to:

- Mechanisms of Wnt signal transduction.
- Wnt signaling in cell embryonic specification and patterning.
- Wnt signaling in regeneration.
- Morphogenesis and Wnt signaling.
- Wnt signaling in stem cells.
- The role of Wnt signaling in the evolution of metazoans.

About the Journal

Message from the Editor-in-Chief

The *Journal of Developmental Biology* (JDB) publishes original research papers and timely reviews. Our primary aim is to provide a platform for the publication of studies on the development of multicellular organisms efficiently and professionally; papers undergo a fast, yet thorough, peer-review process. JDB is an open access journal and accepted contributions are published immediately online, providing unlimited access to the scientific community and general public. We look forward to receiving your contribution to our journal and to working with fellow researchers.

Editor-in-Chief

Prof. Dr. Simon J. Conway

Herman B Wells Center for Pediatric Research, 1044 West Walnut Street, Indiana University School of Medicine, Indianapolis, IN 46202, USA

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 27.1 days after submission; acceptance to publication is undertaken in 5.6 days (median values for papers published in this journal in the second half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
