The 10th Anniversary of *JDB*: Feature Papers

Message from the Guest Editor

The year 2023 marks the 10th anniversary of the *Journal of Developmental Biology (JDB)* (ISSN 2221-3759), which is a peer-reviewed, open access journal on the development of multicellular organisms at the molecule, cell, tissue, organ, and whole-organism levels. The *JDB* has published over 299 papers by more than 935 authors, and nearly 515 reviewers have submitted at least one review report. We appreciate the contributions made by authors and reviewers, which have led to the continued success of our journal. To celebrate this 10th anniversary, we are arranging a series of special content and events. We hope that you can join us in celebrating this milestone for our journal and enjoy the collection below. To celebrate this significant milestone, a Special Issue, entitled “The 10th Anniversary of *JDB*: Feature Papers”, has been launched. This Special Issue will include high-quality papers on topics within the broad scope of *JDB*. It is our pleasure to invite you to contribute an original research paper or comprehensive review article on a current, trending topic for peer review and possible publication in the *JDB*.

About the Journal

Message from the Editor-in-Chief

The *Journal of Developmental Biology* (JDB) publishes original research papers and timely reviews. Our primary aim is to provide a platform for the publication of studies on the development of multicellular organisms efficiently and professionally; papers undergo a fast, yet thorough, peer-review process. JDB is an open access journal and accepted contributions are published immediately online, providing unlimited access to the scientific community and general public. We look forward to receiving your contribution to our journal and to working with fellow researchers.
