Scientific Papers by Developmental Biologists in Japan

Message from the Guest Editors

The Special Issue "Scientific Papers by Developmental Biologists in Japan" represents a collection of high-quality review articles, research articles and communications on the development of multicellular organisms at the molecule, cell, tissue, organ, and whole organism levels, submitted by the developmental biologists working in Japan. By representing different areas of research on developmental biology, this Special Issue serves to expand emerging fields in developmental biology, focusing on the specific topic from the relevant laboratories in Japan. We kindly encourage our colleagues involved in all fields of developmental biology to make contributions to this Special Issue.

About the Journal

Message from the Editor-in-Chief

The *Journal of Developmental Biology* (JDB) publishes original research papers and timely reviews. Our primary aim is to provide a platform for the publication of studies on the development of multicellular organisms efficiently and professionally; papers undergo a fast, yet thorough, peer-review process. JDB is an open access journal and accepted contributions are published immediately online, providing unlimited access to the scientific community and general public. We look forward to receiving your contribution to our journal and to working with fellow researchers.

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 26.2 days after submission; acceptance to publication is undertaken in 5.9 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
