# **Special Issue**

# Biomaterials for Oral Reconstructive Treatment—2nd Edition

## Message from the Guest Editor

The scope of this 'Journal of Functional Biomaterials' Special Issue, entitled 'Biomaterials for Oral Reconstructive Treatment—2nd Edition', comprises all biomaterials applied in the different dental disciplines: oral rehabilitation, periodontology, dental implantology, oral and maxillofacial reconstruction and endodontology. Special attention will be given to active biomaterials developed to induce cell differentiation/stimulation, trigger hard tissue formation and exert antimicrobial actions. Original research, meta-analyses, systematic reviews, literature reviews, and case series concerning biomaterials used for oral reconstructive treatment in all dental disciplines are all welcome.

## Message from the Editor-in-Chief

The biomaterials field is one of the largest and fastest growing research areas both in the scientific community and in the industrial one. Biomaterials are the result of collaborations between different disciplines: chemistry, medicine, pharmacology, engineering and biology. The objective of this collaboration is to lead to the implementation of new devices to restore form and human body functions. The mission of the Journal of Functional Biomaterials (JFB) is to focus attention on physico-chemical characteristics and their importance in the interactions between biomaterials and living tissues. JFB seeks to publish studies on the preparation, performance and use of biomaterials in biomedical devices, as well as regarding their behavior in physiological environments. We are pleased to welcome you as our authors.

#### **Editor-in-Chief**

### Prof. Dr. Pankaj Vadgama

School of Engineering and Materials Science, Queen Mary University of London, London, UK

#### **Author Benefits**

## **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Engineering, Biomedical) / CiteScore - Q2 (Biomedical Engineering)
