

Special Issue

Innovations in Dental Biomaterials

Message from the Guest Editors

The Special Issue aims to investigate the most recent advances and discoveries in biomaterials designed exclusively for dental applications. This includes materials used in restorative dentistry, prosthodontics, endodontics, periodontics, and oral surgery. The emphasis will be on materials science, engineering principles, and clinical applications to address current issues in dental care. The goal is to create a forum for researchers, clinicians, and industry specialists to communicate their perspectives, discoveries, and experiences in creating and implementing advanced biomaterials in the dentistry area.

Guest Editors

Dr. Cristina Teodora Dobrota

Molecular Biology and Biotechnology, Babes-Bolyai University, 400084 Cluj-Napoca, Romania

Prof. Dr. Sunita Ho

1. Division of Preclinical Education, Biomaterials & Engineering, Department of Preventive and Restorative Dental Sciences, School of Dentistry, University of California San Francisco, San Francisco, CA, USA

2. Department of Urology, School of Medicine, University of California San Francisco, San Francisco, CA 94143, USA

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

The biomaterials field is one of the largest and fastest growing research areas both in the scientific community and in the industrial one. Biomaterials are the result of collaborations between different disciplines: chemistry, medicine, pharmacology, engineering and biology. The objective of this collaboration is to lead to the implementation of new devices to restore form and human body functions. The mission of the *Journal of Functional Biomaterials (JFB)* is to focus attention on physico-chemical characteristics and their importance in the interactions between biomaterials and living tissues. *JFB* seeks to publish studies on the preparation, performance and use of biomaterials in biomedical devices, as well as regarding their behavior in physiological environments. We are pleased to welcome you as our authors.

Editor-in-Chief

Prof. Dr. Pankaj Vadgama

School of Engineering and Materials Science, Queen Mary University of London, London, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Ei Compendex, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Biomedical) / CiteScore - Q2 (Biomedical Engineering)
