

Special Issue

Three-Dimensional Bioprinting, Organ-on-a-Chip, and Other Experimental Platforms for Tumor Microenvironment Studies

Message from the Guest Editors

This Special Issue will highlight recent progress and future directions in cancer modeling, with a focus on platforms that can bridge the gap between basic research and clinical relevance. We welcome your contributions to this important and rapidly evolving field. We invite the submission of original research, comprehensive reviews, and novel perspectives that will advance the development and application of cancer models toward more predictive and translational oncological outcomes.

Guest Editors

Dr. Arvind Kumar Shukla

School of Biomedical Convergence Engineering, Pusan National University, Yangsan, Republic of Korea

Dr. Sayan Deb Dutta

School of Medicine, University of California, Davis, Sacramento, CA 95817, USA

Deadline for manuscript submissions

28 February 2026

About the Journal

Message from the Editor-in-Chief

The biomaterials field is one of the largest and fastest growing research areas both in the scientific community and in the industrial one. Biomaterials are the result of collaborations between different disciplines: chemistry, medicine, pharmacology, engineering and biology. The objective of this collaboration is to lead to the implementation of new devices to restore form and human body functions. The mission of the *Journal of Functional Biomaterials (JFB)* is to focus attention on physico-chemical characteristics and their importance in the interactions between biomaterials and living tissues. *JFB* seeks to publish studies on the preparation, performance and use of biomaterials in biomedical devices, as well as regarding their behavior in physiological environments. We are pleased to welcome you as our authors.

Editor-in-Chief

Prof. Dr. Pankaj Vadgama

School of Engineering and Materials Science, Queen Mary University of London, London, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Ei Compendex, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Biomedical) / CiteScore - Q2 (Biomedical Engineering)
