

Special Issue

Exercise and Evaluation for Health and Occupational Wellness: Current Trends and Future Directions—2nd Edition

Message from the Guest Editors

The evaluation, appropriate design and implementation of intervention programs for health promotion and occupational wellness require a purely scientific process. This Special Issue will highlight the importance and efficiency of evaluating exercise and physical activity, as well as of other lifestyle behaviors (ergonomics, nutrition, smoking, alcohol, sleep, etc.), for promoting health and occupational wellness. We invite you to contribute to this Special Issue by presenting your work on healthy populations of different ages (children, adolescents, adults, or the elderly) or on workers of different professional categories, including original articles, case studies, narrative or systematic reviews, and meta-analyses.

Guest Editors

Dr. Konstantina Karatrantou

Department of Physical Education and Sports Science, University of Thessaly, 42100 Trikala, Greece

Prof. Dr. Vassilis Gerodimos

Department of Physical Education and Sports Science, University of Thessaly, 42100 Trikala, Greece

Deadline for manuscript submissions

31 October 2025
