

Special Issue

Strength Training and Performance Enhancement in Athletes, 2nd Edition

Message from the Guest Editor

Strength training is a crucial component of athletic performance and plays a critical role in improving muscle strength, power, and endurance. The second volume of this Special Issue continues to explore the latest research and advancements in the field of strength training and its impact on enhancing athletic performance. Therefore, we welcome contributions on various topics related to strength training, including the following: Resistance training and its effects on muscle strength, muscle hypertrophy, power, and/or endurance; The effect of altering technique variations on kinematics and kinetics in different resistance exercises; The impact of strength training on the enhancement of athletic performance; The use of technology/data analytics in performance monitoring during strength training and the enhancement of athletic performance; The influence of anthropometrics, age, gender, and other relevant factors on performance enhancement in strength and athletic performance.

Guest Editor

Prof. Dr. Roland Van den Tillaar

Department of Sport Science and Physical Education, Nord University,
7600 Levanger, Norway

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Giuseppe Musumeci

Department of Biomedical and Biotechnological Sciences, Anatomy,
Histology and Movement Sciences Section, School of Medicine,
University of Catania, 95123 Catania, Italy

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, PubMed,
PMC, FSTA, and other databases.

Journal Rank:

JCR - Q2 (Sport Sciences) / CiteScore - Q2 (Physical
Therapy, Sports Therapy and Rehabilitation)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 26.9 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
