Special Issue

Health and Performance Through Sports at All Ages: 4th Edition

Message from the Guest Editor

It is with great enthusiasm that I am announcing the fourth edition of this Special Issue of JFMK, 'Health and Performance in Sports at All Ages', with the aim to examine the effects of sports, practiced at all ages, on health and performance. Health, fitness, and exercise have become very important topics in the literature. Sports-related professionals require the support of evidence-based knowledge to respond satisfactorily to practicing individuals, teams, and combat sports. Topics of interest include strength training, exercise technique, conditioning methodologies and programming. performance recovery, skill development, body composition, nutrition for performance and health, and health- and performance-related testing. We welcome original research, meta-analysis, reviews, and brief reports on these topics.

Guest Editor

Prof. Dr. Gianpiero Greco

Department of Translational Biomedicine and Neuroscience (DiBraiN), University of Study of Bari, 70124 Bari, Italy

Deadline for manuscript submissions

30 April 2026

Journal of Functional Morphology and Kinesiology

an Open Access Journal by MDPI

Impact Factor 2.5 CiteScore 3.7 Indexed in PubMed
