

## Special Issue

# Arrhythmic Events in Sports Medicine and Kinesiology

### Message from the Guest Editor

Focusing on arrhythmias in athletes has been of wide interest since the origins of sports medicine. Despite the fact that elite athletes are the major class of interest for high risk sudden death, many other categories of subjects are now considered in global arrhythmic evaluation. As consequence of the fact that the general population practices sport, the importance of investigating this aspect in depth is fundamental. The real significance of arrhythmic events, as well the principal causes, are well known in cardiology; however, the frequent absence of structural cardiopathies offers many points of discussion. The aim of this Special Issue is to invite everyone who has experience in this field to contribute to highlight the specific topics of some known or lesser-known aspects.

### Guest Editor

Dr. Laura Stefani

Sport Medicine Center, Department of Experimental and Clinical Medicine, University of Florence, 50121 Florence, Italy

### Deadline for manuscript submissions

closed (30 April 2019)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Giuseppe Musumeci

Department of Biomedical and Biotechnological Sciences, Anatomy,  
Histology and Movement Sciences Section, School of Medicine,  
University of Catania, 95123 Catania, Italy

---

#### Author Benefits

##### High Visibility:

indexed within ESCI (Web of Science), Scopus, PubMed,  
PMC, FSTA, and other databases.

##### Journal Rank:

JCR - Q2 (Sport Sciences) / CiteScore - Q2 (Physical  
Therapy, Sports Therapy and Rehabilitation)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 26.9 days after  
submission; acceptance to publication is undertaken in 1.9  
days (median values for papers published in this journal in  
the first half of 2025).
