

Special Issue

Selected Papers from icSPORTS 2018

Message from the Guest Editors

The 6th International Congress on Sport Sciences Research and Technology support (icSPORTS 2018) will be held in Seville, Spain, 20–21 September, 2018 (<http://www.icsports.org/>). Most human activities, including sports, are becoming more and more technological. Engineering in general and Information Technology in particular are important in the support for many activities directly or indirectly related to sport sciences, including improvement of physical activities and sports performance, sports medicine, biotechnology and nutrition, sports management, and all other application areas in sports. This congress intends to be a meeting point for both academics, sport professionals and practitioners to exchange ideas and develop synergies. Selected papers that presented at the congress are invited to submit their extended versions to this Special Issue of *Journal of Functional Morphology and Kinesiology* after the conference. All submitted papers will undergo the standard peer-review procedure and fast publication. Accepted papers will be published in open access format and collected together in this Special Issue. There are no publication charges for this journal in 2018.

Guest Editors

Prof. Dr. Jan Cabri

Dr. Pedro Pizarat-Correia

Prof. Dr. João Paulo Vilas-Boas

Deadline for manuscript submissions
