

Special Issue

Celebrating the 10th Anniversary of the *Journal of Imaging*

Message from the Guest Editors

The MDPI *Journal of Imaging* is delighted to announce a Special Issue to commemorate its 10th anniversary. Over the past decade, the journal has been at the forefront of publishing high-quality research across all areas of imaging science and technology. This milestone reflects the invaluable contributions of our authors, reviewers, and readers worldwide. To mark this occasion, we are inviting submissions for a Special Issue that will showcase the most innovative, impactful, and visionary research in imaging science. We welcome contributions from both well-established experts and emerging researchers, aiming to provide a comprehensive view of the current state and future directions of imaging. We invite you to join us in celebrating this important milestone by contributing to a special publication that highlights the journal's legacy and achievements. This is a unique opportunity to share your groundbreaking research with a global audience, make an impact in the field of imaging science, and play a significant role in shaping the future of this ever-evolving discipline. We look forward to receiving your contributions and celebrating this significant milestone together!

About the Journal

Message from the Editor-in-Chief

The imaging term, specific with journal, is to be considered in its broadest sense. Image processing, image understanding and computer vision are all terms related to imaging acquisition, its processing and the extraction of relevant information from the scene to obtain the underlying knowledge. All tasks related to the above items are oriented toward specific applications in a broad range of areas and topics. The *Journal of Imaging* is conceived as an efficient vehicle in the scientific community for the communication and transmission of the progress and research results in the topics covered.
