# Special Issue Neutron Imaging

# Message from the Guest Editors

This Special Issue will report on recent breakthroughs in instrumentation and new applications in this exciting field that extends from lithium batteries to studies of cultural heritage, and from biomedical engineering to nuclear materials. **Keywords:** 

- Compact neutron sources
- Fast neutron imaging
- Neutron focusing optics
- Polarized neutron imaging
- Neutron imaging for energy applications

# About the Journal

# Message from the Editor-in-Chief

The imaging term, specific with journal, is to be considered in its broadest sense. Image processing, image understanding and computer vision are all terms related to imaging acquisition, its processing and the extraction of relevant information from the scene to obtain the underlying knowledge. All tasks related to the above items are oriented toward specific applications in a broad range of areas and topics. The *Journal of Imaging* is conceived as an efficient vehicle in the scientific community for the communication and transmission of the progress and research results in the topics covered.
