Deadline for manuscript  
submissions:

**closed (15 October 2022)**

### Message from the Guest Editors

We would like to propose a Special Issue that gathers original studies, reviews, and theoretical papers presenting papers that should ideally combine both the main concepts (creativity and emotional intelligence) or related conceptions (emotional creativity and socioemotional skills). With this broad scope, we are looking for submissions that address one or more of the following topics, among others:

- The development of creativity and emotional intelligence through training and programs in adults or children (please specify in your submission);
- Combined evaluation of both creativity and emotional intelligence/emotional competence;
- Influences of emotional intelligence on creativity or vice versa.

If your paper does not address any of the proposed categories but you believe it is aligned with the main concepts we propose in this Special Issue, please feel free to submit your manuscript.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

The relatively new and ambitious *Journal of Intelligence* is devoted to the study of human intelligence. Intelligence is a fundamental core of being human, with far-ranging implications for all members of our society. Now more than ever, in a world in which most have access to the Internet, information, and misinformation, with reduced face-to-face interactions, understanding how to measure and develop human intelligence is a critical and vital mission. Human intelligence is studied from many different perspectives, for different purposes, and this journal has an open policy with respect to approaches and methodologies. We encourage submissions with the potential to innovate, show alternative perspectives, and highlight the importance of developing and measuring intelligence as well as studies on intelligence that have an impact on our lives.

## Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, PSYINDEX, and other databases.

**Journal Rank:** JCR - Q1 (Psychology, Multidisciplinary) / CiteScore - Q1 (Education)
