

Special Issue

Cognitive Motivation

Message from the Guest Editors

We are pleased to announce a Call for Papers for a Special Issue on Cognitive Motivation in *Intelligence*.

The aim of this Special Issue is to shed light on the nature and nomological network of traits related to cognitive motivation, such as the Need for Cognition and other investment traits; their interplay with personality, motivational, and ability traits; and to learn more about their longitudinal development as well as about their implications in different contexts of life.

Despite the growing body of literature in the field, little is known about the underlying processes and mechanisms or developmental trajectories of Cognitive Motivation, and longitudinal explorations are scarce. Consequently, we especially welcome theoretical contributions that advance our understanding of the nature of Cognitive Motivation; articles that focus on developmental perspectives, such as developmental trajectories or factors impacting the development of investment traits; and longitudinal studies demonstrating the usefulness of Cognitive Motivation beyond academic contexts and for dealing with not only cognitive challenges.

Guest Editors

Prof. Dr. Anja Strobel

Institute of Psychology, Chemnitz University of Technology, 09120 Chemnitz, Germany

Prof. Dr. Alexander Strobel

Faculty of Psychology, Technische Universität Dresden, 01062 Dresden, Germany

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

The relatively new and ambitious *Journal of Intelligence* is devoted to the study of human intelligence. Intelligence is a fundamental core of being human, with far-ranging implications for all members of our society. Now more than ever, in a world in which most have access to the Internet, information, and misinformation, with reduced face-to-face interactions, understanding how to measure and develop human intelligence is a critical and vital mission. Human intelligence is studied from many different perspectives, for different purposes, and this journal has an open policy with respect to approaches and methodologies. We encourage submissions with the potential to innovate, show alternative perspectives, and highlight the importance of developing and measuring intelligence as well as studies on intelligence that have an impact on our lives.

Editor-in-Chief

Prof. Dr. Con Stough
Centre for Human Psychopharmacology, Swinburne University of
Technology, Hawthorn, VIC 3122, Australia

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, PSYINDEX, and other databases.

Journal Rank:

JCR - Q1 (Psychology, Multidisciplinary) / CiteScore - Q1 (Education)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 30.7 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the first half of 2025).
