

Special Issue

Intelligence in the Workplace

Message from the Guest Editor

Manuscripts are now being considered for possible publication in a Special Issue of the *Journal of Intelligence* (<http://www.mdpi.com/journal/jintelligence>) under the theme of “Intelligence in the Workplace”. Included will be research reports and review papers dealing with various aspects of intelligence, such as intelligence testing as a predictor of job performance, controversies of intelligence testing as a selection measure, and personality and intelligence correlates with job preferences. Deadline for submission is 30 November 2016.

About the Journal

Message from the Editor-in-Chief

The relatively new and ambitious *Journal of Intelligence* is devoted to the study of human intelligence. Intelligence is a fundamental core of being human, with far-ranging implications for all members of our society. Now more than ever, in a world in which most have access to the Internet, information, and misinformation, with reduced face-to-face interactions, understanding how to measure and develop human intelligence is a critical and vital mission. Human intelligence is studied from many different perspectives, for different purposes, and this journal has an open policy with respect to approaches and methodologies. We encourage submissions with the potential to innovate, show alternative perspectives, and highlight the importance of developing and measuring intelligence as well as studies on intelligence that have an impact on our lives.

Editor-in-Chief

Prof. Dr. Con Stough
