Deadline for manuscript
submissions:

closed (25 December 2011)

Message from the Guest Editor

Dear Colleagues,

This Special Issue is seeking solid papers from authors who contributed papers in Low Power Electronics in recent high quality conferences. Expanded versions of recent conference papers are welcome, but only when significant details have been added. Both research articles and review articles are invited. The issue is scheduled for publication in March, 2012.

Message from the Editor-in-Chief

Journal of Low Power Electronics and Applications (ISSN 2079-9268) is an open access journal which provides an advanced forum for the studies of electronics for low power applications. A special emphasize is made on ultralow power bio-medical applications. It publishes reviews, regular research papers and short communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.2 days after submission; acceptance to publication is undertaken in 4.6 days (median values for papers published in this journal in the first half of 2024).
