

## Special Issue

# Industrial Aspects of Low Power Design Recent Trends and Methods

### Message from the Guest Editors

The Journal of Low Power Electronics and Applications (JLPEA) is seeking original contributions for the forthcoming issue on Industrial Aspects of Low Power Design Recent Trends and Methods. This issue is scheduled for publication in September, 2011. The aim of this issue is to present recent advances and trends of low power methodologies and applications in industry.

## About the Journal

### Message from the Editor-in-Chief

Journal of Low Power Electronics and Applications (ISSN 2079-9268) is an open access journal which provides an advanced forum for the studies of electronics for low power applications. A special emphasize is made on ultralow power bio-medical applications. It publishes reviews, regular research papers and short communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

---

### Editor-in-Chief

Dr. Davide Bertozzi

Reader in Advanced Processing Technologies, Department of Computer Science, University of Manchester, Manchester M13 9PL, UK

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.4 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).

#### Journal Rank:

CiteScore - Q2 (Electrical and Electronic Engineering)
