Editorial Board Members' Collection Series: Intelligent Manufacturing

Message from the Guest Editors

It is our pleasure to announce that *Journal of Manufacturing and Materials Processing (JMMP)*, Tracked for Impact, CiteScore 4.8) plans to publish a Special Issue entitled "Editorial Board Members' Collection Series: Intelligent Manufacturing". This will be a collection of feature papers contributed by our Editorial Board Members and their invitees. All feature papers in this Collection will receive full waivers while enjoying benefits stemming from open access and *JMMP* promotions and highlights. Papers from all related areas are within the scope of this Collection, including but not limited to:

- Monitoring, sensing, dynamic modeling, and control of manufacturing processes;
- Robotic manufacturing systems/processes;
- Human-robotic collaborative manufacturing systems/processes;
- Use of machine vision, machine learning, data fusion, optimization, and other advanced techniques/algorithms to improve the operation, quality, and productivity of manufacturing processes;
- Sensing, monitoring, and control of additive manufacturing, including wire arc additive manufacturing processes.

About the Journal

Message from the Editor-in-Chief

Journal of Manufacturing and Materials Processing (JMMP) (ISSN 2504-4494) is a new MDPI peer-reviewed, open access venue with a focus on the scientific fundamentals and engineering methodologies of manufacturing and materials processing. We offer an online platform facilitating effective exchange of innovative scientific and engineering ideas and the dissemination of recent, original, and significant research and developmental findings. On behalf of the Editorial Board, I extend an invitation to our scientific and engineering colleagues to contribute high-quality, innovative, and ground-breaking research articles to *JMMP*.

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, CAPIus / SciFinder, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Mechanical) / CiteScore - Q2
(Mechanical Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the first half of 2025).
