

Special Issue

Progress in Laser Materials Processing

Message from the Guest Editors

This Special Issue entitled “Progress in Laser Materials Processing” welcomes contributions exploring novel applications of laser technology in manufacturing. It covers both conventional laser applications—such as cutting, welding, drilling, and surface treatment—and more innovative approaches, including laser-based micro- and nano-manufacturing. Suitable topics include, but are not limited to, the following:

- Laser cutting and drilling;
- Laser welding and joining;
- Laser surface engineering (cladding, hardening, alloying, texturing, laser-shock peening, marking, etc.);
- Laser-based additive manufacturing;
- Laser micro- and nano-manufacturing.

About the Journal

Message from the Editor-in-Chief

Journal of Manufacturing and Materials Processing (JMMP) (ISSN 2504-4494) is a new MDPI peer-reviewed, open access venue with a focus on the scientific fundamentals and engineering methodologies of manufacturing and materials processing. We offer an online platform facilitating effective exchange of innovative scientific and engineering ideas and the dissemination of recent, original, and significant research and developmental findings. On behalf of the Editorial Board, I extend an invitation to our scientific and engineering colleagues to contribute high-quality, innovative, and ground-breaking research articles to *JMMP*.

Editor-in-Chief

Prof. Dr. Steven Y. Liang
George W. Woodruff School of Mechanical Engineering, Georgia
Institute of Technology, Atlanta, GA 30332-0405, USA

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, CAPIus / SciFinder, Ei Compendex and other databases.

Journal Rank:

JCR - Q2 (Engineering, Mechanical) / CiteScore - Q2
(Mechanical Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.9 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
