

## Special Issue

# Friction Stir Welding and Related Technologies

### Message from the Guest Editors

Current research findings in the Friction stir welding (FSW) field will be reported in this Special Issue of *JMMP*, where the main focus is providing a deeper understanding of the process, from the most fundamental weld formation mechanisms to the large-scale process control and application. Papers showing high-end knowledge about this technology and its variants will be considered in order to translate the valuable developments being performed by the scientific community on this research field. We are interested in contributions in the following areas:

- Friction stir welding
- Friction stir processing
- Friction based additive manufacturing
- Robotics in FSW
- Numerical modelling of the FSW process
- Optimization of FSW parameters
- Mechanical and metallurgical characterization of FSW welds
- Techniques for mechanical and metallurgical characterization of FSW welds
- Internet of things (IoT) for FSW
- Applications of FSW
- Case studies of FSW in the industrial environment

---

## About the Journal

### Message from the Editor-in-Chief

*Journal of Manufacturing and Materials Processing (JMMP)* (ISSN 2504-4494) is a new MDPI peer-reviewed, open access venue with a focus on the scientific fundamentals and engineering methodologies of manufacturing and materials processing. We offer an online platform facilitating effective exchange of innovative scientific and engineering ideas and the dissemination of recent, original, and significant research and developmental findings. On behalf of the Editorial Board, I extend an invitation to our scientific and engineering colleagues to contribute high-quality, innovative, and ground-breaking research articles to *JMMP*.

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, CAPIus / SciFinder, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Mechanical) / CiteScore - Q2  
(Mechanical Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.9 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
