### Message from the Guest Editors

We are delighted to announce this Special Issue, entitled “State-of-the-Art in Ocean Wave Energy Conversion”.

The development of renewable energy has always been a hot topic of research. Among all types of renewable energy, wave energy is one of the most promising untapped ocean energy resources. The United Kingdom, France, Italy, Japan, South Korea, and other countries have gradually turned towards the development and utilization of marine energy. Extensive physical model tests have also been carried out by different developers, yielding in an important increase in knowledge.

In this Special Issue, we welcome all research related to the newly developed technologies in wave energy conversion and system design. We look forward to receiving your contributions on the state of the art and perspectives on wave energy conversion, as well as all related topics, such as modeling, experiments, hydrodynamics, control, moorings, array deployment, PTO, and advanced materials.

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Charitha Pattiaratchi**  
School of Engineering, The UWA  
Oceans Institute, The University  
of Western Australia, Perth, WA  
6009, Australia

## Message from the Editor-in-Chief

*Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312)* focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)
