Message from the Guest Editors

In the protection design of modern ship and offshore structures under explosion or impact, new materials, new structures and new design methods are significant for the protective design of advanced anti-explosion, anti-impact and vibration isolation protective structures. In order to systematically report the new materials, new structures and new design methods for anti-explosion, anti-impact and vibration isolation in Naval Architecture and Ocean Engineering, the special issue aims to collect the research work on the theory, method and engineering application of new anti-explosion, anti-impact and vibration isolation protection design. Through this special issue, the innovative research results and key technical achievements in anti-explosion, anti-impact and vibration isolation protection of naval architecture and ocean engineering will be presented.

Deadline for manuscript submissions:

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)
