Message from the Guest Editor

MARTECH 2022 was the 6th Edition of the international conference that followed 11 editions of an earlier National Conference. It received a total of around 200 abstracts, from which 136 papers were finally accepted and presented, together with four keynote presentations. As in the previous editions, the proceedings were published in book format; however, there may still be scope for a Special Issue of *JMSE* based on this conference, as the keynote presentations were not included in the proceedings, and there was a substantial number of abstracts that were accepted but whose paper version could not be completed in time to be considered for publication in the proceedings. In addition, several papers that presented the initial results of a more extensive, ongoing study may be able to serve as the source for follow-up or expanded papers to be considered for publication in this Special Issue of the journal.

Thus, you are invited to submit papers for this Special Issue, which has the same broad coverage as the conference.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)
