submissions:

closed (25 November 2021)

Message from the Guest Editor

Dear Colleagues,

I would like to invite you to publish your research in this Special Issue on “Engineering Safety Critical Maritime Systems”. With the advent of new technologies for highly automated assistance systems and autonomous systems, there is the need for new methods and tools to design safe critical systems, ensuring safety and security until the safety assessment and certification. The topics also cover new technologies for safety critical maritime systems, like advanced sensor technologies, AI-based technologies, and human–machine interface designs.

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)
