of Science, University of Zagreb,
Zagreb, Croatia

Deadline for manuscript
submissions:

closed (15 October 2021)

Message from the Guest Editor

Dear Colleagues,

This Special Issue is dedicated to an interesting and highly specialized paleontological research field: microbody evolution. The proposed topic has been present in biological studies for less than seventy years, and more recently known from the palaeontological research. Such challenging research themes open new possibilities in paleontological studies and provide us with more colorful and realistic insights into the history of life.

The scope of this Special Issue is to encourage researchers to present their state-of-the-art microbody studies. Such efforts also help scientists to establish new contacts, collaborations, and networks and encourage young naturalists to explore new approaches to the study of fascinating Earth history.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Engineering, Marine*) / CiteScore - Q2 (*Ocean Engineering*)
