Zagreb, Croatia

Deadline for manuscript
submissions:

closed (15 October 2021)

Message from the Guest Editor

Dear Colleagues,

This Special Issue is dedicated to an interesting and highly specialized paleontological research field: microbody evolution. The proposed topic has been present in biological studies for less than seventy years, and more recently known from the palaeontological research. Such challenging research themes open new possibilities in paleontological studies and provide us with more colorful and realistic insights into the history of life.

The scope of this Special Issue is to encourage researchers to present their state-of-the-art microbody studies. Such efforts also help scientists to establish new contacts, collaborations, and networks and encourage young naturalists to explore new approaches to the study of fascinating Earth history.

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)
