Message from the Guest Editor

Coastal fish are important components of marine ecosystems. Furthermore, fishes are the most important economic resources for the majority of professional and recreational fisheries. The purpose of this Special Issue is to publish quality and impactful research articles with respect to several aspects of fish biology and ecology, including also commercial species, the impact of fishery on coastal fish communities, and biological invasion of non-indigenous fish species. Original and high-quality research directly related to various aspects mentioned above is encouraged.

an Open Access Journal by MDPI

Message from the Editorial Board

The *Journal of Marine Science and Engineering* (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, and many other databases.

Journal Rank: JCR - Q2 (*Oceanography*) / CiteScore - Q2 (*Ocean Engineering*)
