Oceanography, San Diego, CA,
USA

Deadline for manuscript
submissions:

closed (20 February 2021)

Message from the Guest Editor

Dear Colleagues,

Plastic pollution has received a great deal of attention worldwide over the past decade. As a result, there has been extensive research on various aspects related to the plastic waste discarded into the oceanic environment such as the degradation and fate of marine debris. The purpose of the invited Special Issue is to publish the most exciting research with respect to the above subjects and to provide a rapid turn-around time regarding reviewing and publishing, and to disseminate the articles freely for research, teaching, and reference purposes.

High quality papers are encouraged, for publication, directly related to various aspects, as mentioned below. Novel techniques for the study are encouraged.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE; ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Engineering, Marine*) / CiteScore - Q2 (*Ocean Engineering*)
