

## Sea Level Rise: Drivers, Variability and Impacts

Guest Editor:

**Prof. Dr. João Miguel Dias**

Physics Department, CESAM,  
University of Aveiro, Campus  
Universitário de Santiago, 3810-  
193 Aveiro, Portugal

Deadline for manuscript  
submissions:

**closed (25 June 2023)**

### Message from the Guest Editor

This Special Issue will gather and share new results, best practices, successes, lessons learned, and general insights that can contribute to improve the knowledge and enhance adaptation to sea level rise in a climate change context. Research articles, review articles, and case studies are welcome. Contributions should focus on local or broader scales, modeling, or analytical analyses. Examples of the following are especially welcome: local or regional studies; methods and challenges to understand sea level rise drivers and its evolution for next decades; projected climate change-driven variations in mean sea level; methods and results concerning sea level rise variability for present and future climates; examples of current and future impacts at different time and spatial scales; impacts on harbors and coastal structures; flooding of low-lying areas; human and natural adaptation and mitigation measures; combined effects of sea level rise and other coastal dynamic drivers (tide, storm surges, etc.); frequency and intensity of extremes; and any other innovative contributions that combine the sustainability of coasts and their economies.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312)* focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)
