

Young Researchers in Ocean Engineering

Guest Editors:

Prof. Dr. Mohamed Benbouzid

Institut de Recherche Dupuy de
Lôme (UMR CNRS 6027 IRDL),
University of Brest, 29238 Brest,
France

Dr. Anne Blavette

SATIE Lab, CNRS, University of
Rennes, ENS Rennes, avenue
Robert Schuman, 35170 Bruz,
France

Dr. Nicolas Guillou

Cerema, DtecREM, Technopôle
Brest-Iroise, BP 5, 29280
Plouzané, France

Deadline for manuscript
submissions:

closed (25 April 2023)

Message from the Guest Editors

Dear Colleagues,

Young minds are a tremendous source of new and challenging ideas in the field of ocean engineering. The next generation of researchers is poised to bring new insights to traditional ocean engineering topics. This Special Issue aims to highlight this new generation of researchers and quants who may not have been fortunate enough to have their work disseminated in a leading journal. In this context, we particularly encourage postdoctoral fellows, graduate students, and undergraduate students (with or without PhD/Fellow/Associate co-authors) to submit their work to this Special Issue, where the topics of interest include but are not limited to: marine and offshore renewable energy; fixed and floating offshore platforms; cables and mooring; buoy technology; foundation engineering; subsea engineering; tide and sediment transport; coastal and estuarine dynamics; and sea water quality.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Engineering, Marine) / CiteScore - Q1 (Ocean Engineering)
