

Special Issue

Advances in Navigability and Mooring (2nd Edition)

Message from the Guest Editor

New findings are especially welcome. Beyond the scientific interest of various studies and beyond the technical task of providing new measures to enhance the safety of shipping in the face of challenges uninvited by ports, we would like this Issue to have some bearing on contemporary issues in general—this includes primarily, the challenges of a world heading for environmental disaster. The following political considerations must also be welcomed: pure science is not a meaningful concept in a complicated commercial world, as we have seen over recent years, not just in regard to obvious issues such as pollution but also piracy, which involves political matters between nations. We welcome research that cohabits maritime science with the humanities in ways that address the very real problems of our global construct.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
