

Special Issue

Advances in Navigability and Mooring (2nd Edition)

Message from the Guest Editor

New findings are especially welcome. Beyond the scientific interest of various studies and beyond the technical task of providing new measures to enhance the safety of shipping in the face of challenges uninvited by ports, we would like this Issue to have some bearing on contemporary issues in general—this includes primarily, the challenges of a world heading for environmental disaster. The following political considerations must also be welcomed: pure science is not a meaningful concept in a complicated commercial world, as we have seen over recent years, not just in regard to obvious issues such as pollution but also piracy, which involves political matters between nations. We welcome research that cohabits maritime science with the humanities in ways that address the very real problems of our global construct.

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
