

Special Issue

The 10th Anniversary of JMSE— Recent Advances in Section Marine Hazards

Message from the Guest Editors

From typhoons/hurricanes to coastal erosion to oil spills, many marine hazards threaten our ocean as well as coastal areas and could be aggravated by the changing climate. The current Special Issue aims to publish the most exciting research concerning the subject of marine hazards. We provide a rapid turnaround time regarding reviewing and publishing, and disseminate articles freely for research, teaching, and reference purposes worldwide. High-quality papers are encouraged, for publication directly related to various aspects of marine hazards, as mentioned below. Novel techniques for research are highly encouraged.

Guest Editors

Dr. Wei-Bo Chen

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
