# **Special Issue**

# Fish as Bioindicators of the Fresh and Marine Water Ecosystems

# Message from the Guest Editors

This Special Issue concerns studies of the use of fish as bioindicators of fresh and marine water ecosystems' status, impacted by different environmental and anthropogenic factors. Fish (in situ) are a good indicator of environmental changes and ecosystem health, especially in case of toxic water pollution. In general, indicators at all levels of their biological organization provide information on the fish population status and their environment. Biochemical and physiological indicators reflect the functional status of individual organisms, while intermediate-level responses, such as histopathological condition and morphological characteristics, are indicative of the structural integrity of tissues and organs. Community- and population-level measurements integrate the responses to a variety of environmental conditions, and therefore may be less reflective of contaminant-induced stress in comparison to the level of organisms.

## **Guest Editors**

Prof. Dr. Tatyana Moiseenko

Vernadsky Institute of Geochemistry and Analytical Chemistry of Russian Academy of Sciences, Moscow, Russia

Prof. Dr. Irina Rudneva

Marine Hydrophisical Institute of RAS, 2, Kapitanskaya Str., 299011 Sevastopol, Russia

### Deadline for manuscript submissions

closed (30 November 2023)

# Message from the Editor-in-Chief

The Journal of Marine Science and Engineering (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

### Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

### **Author Benefits**

# **High Visibility:**

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

### Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

## **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
