

## Special Issue

# Biogeography, Biodiversity and Systematics of Marine Cephalopods

### Message from the Guest Editors

Cephalopods are among the most dynamic and ecologically important marine invertebrates, occupying a wide range of habitats from coastal zones to the deep sea. This Special Issue aims to explore the biogeographic patterns, biodiversity, and systematics of cephalopods through integrative approaches that combine molecular phylogenetics, morphology, ecology, and biogeographic modeling. Historically understudied in many regions, cephalopods are now gaining attention due to their ecological importance and growing relevance in fisheries. We welcome cutting-edge research on species delimitation, population connectivity, evolutionary adaptations, and macroecological trends. Studies that bridge taxonomy with applied management or highlight underexplored taxa and regions are especially encouraged. Contributions may include original research, reviews, and case studies that advance our understanding of cephalopod diversity and distribution, particularly in the context of environmental change and conservation.

### Guest Editors

Dr. Christian Marcelo Ibáñez

Dr. Sergio A. Carrasco

Dr. María Cecilia Pardo-Gandarillas

### Deadline for manuscript submissions

1 April 2026

## About the Journal

### Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

### Author Benefits

#### High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei  
Compendex, GeoRef, Inspec, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean  
Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 15.6 days after  
submission; acceptance to publication is undertaken in 1.9  
days (median values for papers published in this journal in  
the first half of 2025).
