

## Special Issue

# Advancements in Renewable Energy: Construction and Maintenance of Offshore Wind Farms

### Message from the Guest Editors

Energy demand and global climate change have become two of the most significant challenges to human society. This situation forces researchers to develop sustainable and renewable energy resources. Wind energy, a clean, plentiful, and renewable alternative, has promoted a rapid increase in both the installed capacity and the number of wind turbines in recent years. As wind farms move into deeper seas, there continue to be challenges to overcome during construction and maintenance. This Special Edition of JMSE will focus on the state of practice and identify current, emerging, and future geotechnical and structural challenges associated with the construction and maintenance of wind farms. The topics are expected to fall into the following areas:

- Installation—monitoring, instrumentation, risk management, protections, and case studies;
- Analysis and design—foundation concepts, design optimization, and standards;
- Lifetime performance—monitoring, behaviors, digital twins, repair, and disposal.

## About the Journal

### Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

### Author Benefits

#### High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei  
Compendex, GeoRef, Inspec, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean  
Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 15.6 days after  
submission; acceptance to publication is undertaken in 1.9  
days (median values for papers published in this journal in  
the first half of 2025).
