

Special Issue

The 10th Anniversary of *JMSE* – Recent Advances in Section Ocean Engineering

Message from the Guest Editor

Marine geohazard covers wide range of marine science and engineering processes and issues. This research topic has attracted great attentions among marine engineers and scientists in recent years due to growth of human activities in marine environments. A better understanding of physic processes, an appropriate design of marine infrastructures and solutions of existing and future marine geohazard associated with the new developments in marine environments. This special issue will report recent advances in the field and provide future scopes for researchers.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
