The 9th International Conference on Marine Structures (MARSTRUCT 2023)

Message from the Guest Editors

The MARSTRUCT series of conferences derived from the MARSTRUCT Network of Excellence with 33 partners, active from February 2004 to January 2010. It has become a biannual series of conferences dedicated to marine structures. MARSTRUCT 2023 was the 9th edition of the international conference arranged by the Division of Marine Technology at Chalmers University of Technology | Gothenburg, Sweden. The scope deals with all aspects of marine structures. 99 out of around 130 received abstracts were accepted and presented, together with 3 keynote presentations. Research for which the paper version could not be completed in time to be published in the proceedings will be considered for publication in this Special Issue of JMSE. In addition to attendees of the conference, all colleagues in related areas are invited to submit papers for this Special Issue, which has the same broad coverage as the conference.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.
