

Special Issue

Hydrodynamic Research of Marine Structures

Message from the Guest Editors

This Special Issue aims to bring together the latest advancements and insights in the field of hydrodynamics that are specific to marine structures, providing a platform for researchers to share their findings, methodologies, and applications. Specific topics of interest for submission include, but are not limited to, the following:

- The hydrodynamic characterization of marine structures;
- Design optimization and performance enhancement;
- Hydrodynamic analysis and simulation techniques;
- Fluid-structure interactions;
- Case studies and practical applications.

We welcome both theoretical and applied research papers that present new insights, methodologies, and practical solutions in the field of hydrodynamic research on marine structures.

Guest Editors

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
