

## Special Issue

# Editorial Board Members' Collection Series "Marine Geological Hazards"

### Message from the Guest Editors

Rising human population densities in coastal regions of the world, the advance of exploration activities in deep waters, uncertainties and concerns related to climate change, and the devastation of coastal areas by tsunamis generated by earthquakes and landslides are responsible for the growing importance and awareness related to marine geological hazards research. Research on high energy events is essential to understand coastal evolution, the response of the coastal zone, and impact on coastal morphodynamics. The purpose of the invited Special Issue is to publish the most interesting research with respect to the above topics, to provide a faster reviewing and publishing time, and to propagate the articles freely for research, teaching, and reference purposes. High-quality works related to the various aspects mentioned below are encouraged.

- Tsunamis/paleo-tsumanis;
- Coastal erosion;
- Coastal hazards;
- Submarine landslides;
- Seabed sand waves;
- Earthquakes;
- Case studies;
- Tracers;
- Modeling;
- Effects on benthic fauna.

## About the Journal

### Message from the Editor-in-Chief

*Journal of Marine Science and Engineering (JMSE*, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

---

### Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

---

### Author Benefits

#### High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
