

Special Issue

Green and Smart Seaports: New Infrastructure, Challenges, and Energy Efficiency Measures

Message from the Guest Editor

This Special Issue that we are presenting to you deals with a highly topical and future-oriented issue in the maritime port world. The evolution of ports will be based, in the coming years, on the development of sustainability, especially environmental sustainability, energy efficiency, and digitalisation. In this way, ports will be the main actors for the development of the global and national economy. However, this new horizon presents a series of important challenges in which port and maritime management will be key in the future, and where the management of port infrastructures is fundamental. For all these reasons, I encourage you to submit a contribution to this Special Issue, which I am convinced will be very successful and well received.

Guest Editor

Prof. Dr. Alberto Camarero Orive

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
