

Special Issue

Maritime Logistics: Shipping and Port Management

Message from the Guest Editors

With the continuous growth of global trade and the rapid development of digital technologies, the maritime logistics sector is facing unprecedented opportunities and challenges. The operational efficiency, management level, and collaborative capabilities of shipping and ports directly impact the effectiveness and sustainability of the entire logistics system. This Special Issue will focus on cutting-edge research in the field of shipping and port management, including intelligent ship operations, port automation systems, multimodal transport coordination and optimization, green port management, ship emission control, maritime energy efficiency optimization, maritime supply chain resilience enhancement, and shipping. The goal of this Special Issue is to gather cutting-edge research findings, promoting knowledge exchange and technological innovation in the field of shipping and port management. We invite original research papers and review articles that collectively explore the future development directions of shipping and port management.

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
