

Special Issue

Sustainable Utilization of Marine Renewable Energy

Message from the Guest Editors

This Special Issue aims to showcase the latest research achievements, findings, and ideas in the renewable and sustainable utilization of marine renewable energy.

Researchers are invited to contribute original research articles, as well as review articles that summarize the latest developments and ideas in these technologies.

Potential topics include, but are not limited to:

Possibilities of marine renewable energy development;
Renewable marine energy sources, institutional factors, and sustainable development;

Marine renewable energy and energy demand of the residents;

Energy conversion;

Energy security;

Pro-ecological marine technologies.

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q1 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
