

Special Issue

Exploration and Drilling Technology of Deep-Sea Natural Gas Hydrate

Message from the Guest Editors

With growing energy demands and the gradual depletion of traditional energy sources, deep-sea natural gas hydrates have become a research area of great concern. In recent decades, research on deep-sea natural gas hydrates has made great progress in terms of formation mechanism, distribution, exploration technology, and drilling technology. This Special Issue aims to consolidate the latest advancements in this field. Authors are encouraged to present cutting-edge research that addresses current challenges in deep-sea natural gas hydrate exploration and drilling. We are looking for original research articles, reviews, and technical notes that contribute to the discourse on the advancement of exploration and drilling technologies used for deep-sea natural gas hydrates.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
