

Special Issue

Population Dynamics, Movements, and Foraging Ecology of Polar Cetaceans

Message from the Guest Editors

An increased anthropogenic activity and a changing climate are causing unprecedented changes to the polar regions. Understanding the population dynamics, distribution, abundance, and life history characteristics of polar cetaceans has never been more vital. This Special Issue aims to publish the latest research findings on polar cetaceans in order to facilitate the rapid dissemination of information on their conservation and management. We encourage the submission of high-quality papers utilizing state-of-the-art methods that directly address the aspects mentioned above.

Guest Editors

Dr. Cortney A. Watt

1. Research Scientist, Fisheries and Oceans Canada, Winnipeg, MB, Canada
2. Adjunct Professor, Departments of Biological Sciences and Environment & Geography, University of Manitoba, Winnipeg, MB, Canada

Dr. Outi Maria Tervo

Senior Scientist, Department of Mammals and Birds, Greenland Institute of Natural Resources, Copenhagen, Denmark

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
