

Special Issue

The Impact of Exotic Species Invasion on Marine Ecosystems

Message from the Guest Editors

Marine ecosystems face significant challenges from the invasion of exotic species, leading to profound ecological and economic impacts. This Special Issue is dedicated to publishing the most exciting and cutting-edge research on the impact of exotic species invasion on marine ecosystems, focusing on both the threats they pose and the potential opportunities they present. We invite high-quality papers offering novel insights and techniques related to various aspects of exotic species invasions, including mechanisms and pathways of invasion, ecological impacts, management strategies, and case studies. Additionally, we are interested in innovative uses of invasive species, such as the development of sustainable products derived from alien species. Our goal is to ensure a rapid review and publication process, making the research available for free for academic, teaching, and reference purposes. Contributions will help shape future research directions and inform effective management decisions.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
