

Special Issue

Ecological Risk Assessments in Marine Pollutants

Message from the Guest Editor

The marine ecosystem is one of the richest and most complex ecosystems on Earth, and yet it is highly susceptible to human activities. Marine pollution is one of the main threats facing the marine ecosystem and has profound impacts on marine biodiversity and ecosystem functions. Therefore, we are launching a Special Issue of the *Journal of Marine Science and Engineering* entitled "Ecological Risk Assessments in Marine Pollutants". We cordially invite you to contribute to this Special Issue, which will compile research findings from various fields to provide a scientific basis for the ecological risk assessment of marine pollutants, supporting marine environmental protection and sustainable development.

Keywords:

- marine pollution
- environmental pollutants
- ecological risk assessment
- bioaccumulation
- biomagnification
- marine ecosystem
- marine biodiversity
- marine food web

Guest Editor

Prof. Dr. Hua Tian

College of Marine Life Sciences, Ocean University of China, Qingdao, China

Deadline for manuscript submissions

1 October 2025

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

Oceans Graduate School and The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
